

20.11.01. Pond Bridge - Natural L 300cm

	approx. 300 x 100 x 150 cm (L, B, H)
	possible fallarea of 150 cm

The Pond Bridge as a classic among the bridge constructions of company Ziegler Playgrounds is particularly characterized by its unspoilt natural shape and the tight passage post. In public areas, in gardens and grounds it is an eye-catcher and provides a visual enhancement of the area. For a location on the waterfront, it is well suited because of resistant Robinia wood.
