

11.15. Rope Ferry

	from approx. 5 years of age on
	approx. 1830 x 110 x 150 cm (L, W, H)

The Rope Ferry is an original way of crossing water. Children stand on a floating platform, using a rope to pull themselves towards their destination. The excellent quality of robinia heartwood makes it well suited to use in water, because even there the material is still virtually resistant to any pests.
